HOUSEKEEPING

I believe it is essential to get to know and build positive and lasting relationships with tamariki and their whanau at Akoranga.

Each child is a unique individual and I believe it is beneficial for them to have good guidance and encouragement when exploring different food choices to help create healthy relationships with food for the future.

It is extremely important for the tamariki to be able to play freely in a clean, hygienic and well maintained environment and I am proud to be apart of the team to help provide this.

I wish to be a familiar, friendly face to your tamaiti and enjoy being here to support them daily with their kai and care.

Nga mihi nui
