

What's been happening at Akoranga?

15 February 2025

Seed to Garden to Plate...

Across the centre, we have been harvesting and eating the foods planted during spring last year, including tomatoes, lettuce, strawberries and more!

Many tamariki have enjoyed taking care of the gardens from planting, to watering, harvesting and now eating (even a lettuce & Vegemite sandwich).

Summer's Here!

The tamariki have been getting outside and enjoying the hot weather while it's here!

A lot of the time spent outside is spent playing with water, in the water or around the water!
